

Screening & Brief Intervention Meeting

July 6, 2006

Attendees: Kelly Erlandson, Karen McCaine, Otto Schultz, Dr. Bob Osborne, Kit Boesch.

Kelly called the meeting to order. Following introductions, she reiterated that she will no longer be coordinating the SBI team. Kit said she had asked several people and was wondering what the group's reaction was to the Lincoln Medical Society coordinating SBI. Dr. Osborne said that sounded outstanding and he thought Joan Anderson would do a great job. All others concurred this would be excellent. Kit will follow-up for our September meeting.

Karen reported there were 9-10 attendees at the Madonna training. The group was very receptive. It was composed of case managers, social workers, and nurses. Training for the Beatrice SCC student nurses was held June 2nd and 25 were in attendance. Kelly said the best part about that training was that these nurses were 1 week away from graduation, dispersing into agencies, clinics, etc. They are so energized. Kelly says she hopes this can be a regular training. While she hasn't completed tabulating the pre and post attitude surveys, they generally appear to show a very good change. Kit suggested as we do trainings we develop an email list for sharing future information.

Kit asked where trainings have all been held. Discussion followed. St. Elizabeth's Medical Center, BryanLGH, Lincoln Action Program, Cedars, Peoples Health Center and the Malone Center have all had trainings. We collectively decided to not recruit any other trainings until September 2006 or later.

Otto then discussed Starfish Enterprises' latest opportunity – drug testing by parents. Otto said he and Duke Engel are offering to serve as consultants for parents and have drug kits available for sale. This will begin August 1, 2006. Sample parent packets were shared with the group.

Kit thanked everyone for their work with the team this past year and gave each member a Certificate of Appreciation. Kit said in September we will reconvene with the LMS as staff. We will discuss 2006-07 goals; hopefully have both old and new trainers; and examine our budget identifying potential stipends for presenters. Everyone will be contacted at that time.

Respectfully submitted,

Kit Boesch

NOTE: Following the meeting all supplies were transferred to Kit.
